

xHeal Brand Kit

Last updated: 2026-03-06

Owner: Marketing + Product Marketing

1) Brand Core

- Brand essence: From flare-ups to foresight.
- Category: AI-supported personal health intelligence.
- Core promise: Turn fragmented health data into early signals and clear next actions.
- Brand role: Calm, clinically grounded guide between appointments.

2) Positioning

- Primary angle: Catch flare-up patterns early and act sooner.
- Secondary angle: One health story for every specialist.
- Core contrast: Most tools track isolated metrics; xHeal connects 250+ parameters across labs, records, wearables, and logs.

Positioning statement:

For people managing recurring health uncertainty, xHeal helps detect flare-up patterns early and take clear daily action, so they can stay ahead instead of reacting late.

3) Audience Segments

- Frustrated chronic-condition patient: "Normal tests, real symptoms."
- Data collector / optimizer: "I track everything but still can't connect causes."
- Multi-specialist / family care manager: "My health context is fragmented across systems."

4) Messaging Pillars

1. Early signal detection
2. Clear daily direction
3. Continuity across care
4. Human + clinical trust

5) Proof and Claims

Approved proof language:

- 250+ health parameters connected
- 95% alpha accuracy claim against ~5,000 patients (contextualize as historical alpha testing)
- WHO / ADA / EASD guideline-informed reasoning

Rules:

- Pair every proof with context (who, what, when)
- Never imply diagnosis, treatment, or guaranteed outcomes

6) Voice System

Voice profile:

- Clinically grounded
- Human and reassuring
- Action-oriented
- Plainspoken

Tone:

- Warm-direct
- Serious, not fear-driven
- Moderately formal

Formula:

Promise -> Proof -> Path

7) Vocabulary Guardrails

Use often:

- early signal
- clear next step
- care plan
- follow-up
- specialist-ready
- continuity of care

Use sparingly:

- AI
- optimization
- integrated

Avoid:

- revolutionary
- game-changing
- world-class
- one-stop
- cutting-edge

8) Compliance Language

Always include where relevant:

- xHeal is a health companion and awareness tool.
- xHeal supports care decisions and care-team collaboration.
- xHeal does not diagnose, treat, prescribe, or replace medical professionals.

9) CTA System

Primary CTAs:

- Start care now
- Get your care plan
- Check eligibility
- Build my health timeline

Secondary CTAs:

- See how it works
- View sample report
- Compare plans

10) Visual Identity Tokens

Typography:

- Primary font: PPNeueMontreal

Core colors:

- xblack: #141933
- xwhite: #f8f8fa
- xdark-blue: #4764ff
- xlight-blue: #8c9dff

Design direction:

- Clinical clarity + modern confidence
- High contrast, clean whitespace, focused action states

11) Channel Priorities

- Website: prevention + continuity narrative
- Paid social: strong pattern-hook, single CTA
- Email: one actionable idea per send
- Sales/support copy: reassurance + process clarity + next action

12) Pre-Publish Checklist

- Does it map to one primary audience segment?
- Does it lead with prevention or continuity (not generic all-in-one language)?
- Is tone plainspoken and evidence-based?
- Is at least one approved proof statement included?
- Is compliance-safe language present where needed?
- Is there exactly one primary CTA?
