

Campaign Brief: xHeal Lifecycle Sequences

Metadata

- Created: 2026-03-04
- Brand: xHeal
- Audience: Chronic condition users
- Primary Goal: Trial to paid conversion while preserving trust
- Sequence Types:
 - Nurture (4 emails)
 - Conversion (5 emails)
 - Re-engagement (3 emails)

Positioning Summary

xHeal helps users move from scattered health data and symptom uncertainty to daily clarity through personalized guidance, pattern detection, and routine consistency.

Core Message Pillars

1. Prevention over reaction
2. Pattern visibility over random guessing
3. Sustainable routines over all-or-nothing plans
4. Better specialist conversations through organized data

CTA Strategy

- Nurture: product usage and habit depth
- Conversion: paid continuation and momentum protection
- Re-engagement: low-friction restart

Recommended Timing

- Primary send window: Tuesday/Thursday at 8:15 AM local
- Alternate send window: Sunday at 7:30 PM local
