- Sequence: Conversion
- Day: 27
- Send time: 8:15 AM local
- Primary CTA: Enable quick mode

Subject Line Variants

1. No time? Use the 3-minute version (Recommended)
2. The fastest way to stay consistent
3. Busy weeks do not have to break progress

Preview Text

If your schedule is the blocker, use the minimum path.

Email Copy

Hi [First Name],

If you are thinking "I do not have time for this," that is completely fair.

Use the minimum xHeal flow:

1. one symptom log
2. one behavior log
3. one check-in prompt

Done in about 3 minutes.

This keeps your timeline alive even during difficult weeks, which is exactly when visibility matters most.

You can always go deeper on better days. The key is staying connected.

Set up the faster flow: [Enable quick mode]
