Hi [First Name],

Welcome to xHeal.

You're here to get clarity, not just collect more health data.
Let's get your account ready in 3 minutes:

1. Complete your profile
2. Connect one source (Apple Health, wearable, or manual input)
3. Run your first check-in

That's enough for xHeal to start building your baseline and detecting patterns earlier.

You do not need perfect data to begin.
You just need your first clean setup.

Complete setup: [Complete setup]
